

DUST MOP HEADS & METAL DUST MOP FRAMES

DUST MOP METAL FRAME

GOOD MANUFACTURING PRACTICES
 CERTIFICATE NUMBER GSCGMP-1-121
 Based on: NOM-251-SSA1-2009

Dust mop metal frame manufactured with specifications that make them the most resistant for heavy-duty. The 20 gauge sheet metal handle has a reinforced tip to prevent breakage due to material wearing fatigue. The wire rod used for manufacturing the ring, as well as the steel sheet used in the handle articulation, are more resistant than the ones used by our competitors, making our frames the best available option.
