

FLOOR SQUEEGEE WITH WOODEN HANDLE

GOOD MANUFACTURING PRACTICES
 CERTIFICATE NUMBER GSCGMP-1-121
 Based on: NOM-251-SSA1-2009

20" metallic frame floor squeegee with wooden handle manufactured with reinforced metal sheet and flexible natural rubber that allows removing water effectively. It is important to highlight the features of this product since it has been designed for intensive use in industrial and professional facilities while our competitors' squeegees are made with a very thin metal channel and low-quality rubber (making the product less durable).
