GRILL BRICK

8" x 4" x 3" (20.32 x 10.16 x 8.89 cm) brick recommended for quickly and easily removing residue embedded in griddles and grills without scratching or removing the surface coating. Once the carving is finished, it is necessary to rinse surface to remove debris produced by carving. The surface of the brick wears away with each use, exposing new abrasive grains, allowing this tool to retain its carving ability throughout its useful life.
