

WET MOPS

GOOD MANUFACTURING PRACTICES
CERTIFICATE NUMBER GSCGMP-1-121
Based on: NOM-251-SSA1-2009

Socket mop manufactured with a cotton-polyester blended yarn (90% cotton-10% polyester) that provides excellent absorption and durability. The 400 model has 10 oz. of yarn and the 500 model has 14 oz. This socket mop provides significant savings because its design allows you to throw away worn-out mop heads and reuse the handles (sold separately) or to continue to use the handles you already have for use with brushes and other cleaning tools.
