

WOODEN HANDLES

1900 MODEL

48" long 7/8" diameter, lacquered-wood handle without threaded tip, recommended for using metal frame Moerman® squeegees.

1905-SP MODEL

Handle with the same features as the handle code 1905 except that it does not have a threaded tip, recommended for using metal frame Moerman® Heavy-Duty squeegees.

1901 MODEL

48" long 7/8" diameter, lacquered-wood handle with 3/4" threaded tip suitable for our entire line of products with threaded handle hole.

1904 MODEL

48" long 7/8" diameter, lacquered-wood handle with 3/4" threaded metal tip for greater durability, suitable

for our entire line of products. Humidity does not affect the threaded tip, making this a long-lasting product.

1905 MODEL

60" long 15/16" diameter, lacquered-wood handle with 3/4" threaded metal tip, suitable for our entire line of products. Its wider diameter makes it more resistant for heavy-duty. Its length is ideal to avoid the need of bending over to sweep, making the user less prone to fatigue, allowing a better performance and decreasing absenteeism among cleaning personnel.

1909 MODEL

30" long 7/8" diameter lacquered-wood handle with threaded metal tip for greater durability. This handle is specially designed for our lobby broom and is sold separately, allowing significant savings by purchasing only the replacement broom head.
